*Let's get into it!*

### Step 1: Drawing the Cat

The cat is made of of two simple shapes, a upside down heart for the head and a football shape for the body. An image for your reference has been provided on the last page of this document.

### Step 2: Painting the Background

Using your 75mm Taklon Brush and Scarlet, paint on the background leaving the cat free of paint.

### Step 3: Outlining the Cat

Once the paint has dried, outline the cat with the Black T-Shirt Marker.

#### Step 4: Adding Shapes

Divide the cat in to random shapes, create as many as you like.

#### Step 5: Adding Patterns

In each shape create a different pattern. You can make them as complicated as you like, it is only limited by your imagination.

Try it out and until next time...

*Keep on  
Painting*
