

How to Create a Paper Teddy Bear

Craft

Beginner

Open

..Hello and welcome to another fun lesson.
Today we'll be creating a cute little teddy bear with
tom bits of craft paper. So ...

Lets get into it!

What we used:

MSB0036

Mont Marte Creative
Kids Construction Paper A3

MACR0015

Mont Marte School Glue Gel 147 ml

www.montmarte.net

Step 1. The Materials

For this cute little project we don't need a lot of materials. Some construction paper in an A3 format and some School Glue Gel.

Step 2. Removing Sheets

To create our Teddy we need to neatly tear out 1 Green, 1 Orange, 1 Black and 1 Yellow sheet. Lay them out ready for the next step.

Step 3. Tearing Sheets

Take the Orange sheet and tear it in to little pieces. Tear them into 3 cm x 3 cm bits but vary the shapes. Place them into a pile.

When you tear up the paper, tear it up diagonally this way the torn edge is more fuzzy and interesting.

Step 4. Adding the Orange

Lay a Green sheet on the table. Refer to the Image in this PDF you'll see the basic shapes to create. Glue the orange bits of paper into these shapes.

Step 5. Adding the Yellow

In this step we add the yellow parts to the muzzle, belly and the pads of the feet. Refer to the PDF if you get stuck.

When gluing on the small bits of paper just apply a small dollop in the middle of the bit of paper. The loose edge will suggest fur.

Step 6. Adding the Black

The black adds detail to our bear. A little round bit for the nose two little bits for the eyes and a long smile shape for the mouth.

Well done! I hope you enjoy creating your teddy bear with craft paper and.....

*until next time
Keep on painting*
